H.U.D.A., Panchkula.

To

1. The Superintending Engineer,
H.U.D.A., H.Q. /Panchkula/ Karnal/Gurgaon/ Faridabad/
Hisar/Rohtak.

2. All the Executive Engineers,
H.U.D.A.....
.....
.....

Memo no 328-369
31.01.2001.

Dated

Sub:- Incorporation of the structural, Electrical and Public Health designs in Arch. Drawings.

Incorporation of the above mentioned designs in Architectural drawings prior to start of construction is mandatory. The established procedure clearly specifies that execution is to take place only after the above designs are got incorporated in the Architectural drawings. It is therefore, requested that construction may not be started till incorporation of structure, Electrical and public health designs has been got done in the concerned Architectural drawings.

Sub:- Supervision by the Architects of the various building works in proper.

It has been brought to my notice by the Administrators that various buildings being constructed in Urban Estate, Panchkula as also in other Urban Estates are not being got supervised at any stage of construction by the Architecture Wing of HUDA. As the designs and drawings of all buildings planned in Urban Estate are prepared by the office of Senior Architect, HUDA and got approved from undersigned, it is only proper that it must be ensured that execution of the project on ground is strictly in accordance with the approved design. As a result it becomes necessary that all buildings at various crucial stages of construction i.e. initial layout stage, foundations, plinth level, door level, lintel level, roof level, finishes etc. and before final completion, are got checked from the Architects of H.U.D.A. to avoid any distortion of the approved designs.

You may therefore ensure that Architect's working with HUDA are duly associated at all stages and XEN's coordinate proper inspections with the Architects in order to properly execute the approved designs. Necessary instructions may also be issued to the concerned S.E.'s and XEN's to ensure that the above instructions are implemented.
